

New Item Release_2008

Card Electronic Calculator

An electronic calculator based upon a new concept; designed to have simple functions to bring out the unique texture.

Its shiny front face realized with a hair-line finish and the side faces with a sandblast finish create a contrast, deriving the unique beauty of metal which can be enjoyed at your desk.

By employing a slant style for the shape of the keys, it enables one-handed operation even though it is compact in size.

It is an ideal gift for your boss or someone special.
